

Abdicated?

HEAR EMPEROR HAS QUIT PEKING

Capital Also Alarmed by Rumors of His Death.

Imperial City Informed of Another Defeat.

Palace Servants and Others Are Hurrying Away.

(By A. P. NIGHT WIRE TO THE TIMES.)
PEKING, Oct. 22.—The full text of a joint dispatch sent by Admirals Jui Cheng and Sah Chen Ping, in command of the warships of Hankow, is published in the Chinese papers, showing that there has been a sudden and inexplicable relaxation of the censorship. The dispatch says:

"As the second instalment of the 'Wu' Tchang was arrived at the port station they were attacked by from 2000 to 2000 rebels. Gen. Chang-Ping led the troops from Hu-Nan Peh and Hsien, killing 200 to 300 rebels. They also captured six big guns and numerous other weapons. More than twenty Imperial troops were killed."

"Simultaneously Admiral Sah ordered the fleet to protect the river bank and prevent reinforcements from coming from Wu Chang."

"The warships, however, were unable to participate in the fighting; because of the narrow channel which the rebels had made through the fortifications, but he had so many men wounded he was unable to retain it."

The dispatch concludes:

"The fleet is without coal or rice. We can only appeal to the throne to send Yin Tchang immediately with supplies."

"The National Assembly was opened this afternoon by Prince Shih-To of the House of Li, who by a secret edict was deputed at the last moment to take the place of the regent. The entire assembly paid their respects to the troops and the adjacent walls were glistening with bayonets of the imperial guards."

"After the imperial delegate entered the chamber, the members of the assembly all bowed and knelt three times. Rising to their feet after each genuflexion, they bowed nine times to the Emperor's tablet."

"Then they remained standing while Prince Shih-to took his seat on the left of the vacant throne."

"The assembly having been read, the Prince read the Regent's message, which emphasized his wish to carry on the constitutional government. He urged the members to turn the knowledge and experience which they had gained in the first session to account, in order to attend to the well-being of the nation and to give expression to the wishes of the people. No mention was made of the rebellion."

"Out of a total of 125 members, 117 were present. Not many of the deputies from the provinces of Ssu Chien and Hu Peh attended."

Foreigners were not admitted at the opening session.

The Gazette publishes the reply of Yuan Shih Kai to the edict appointing Yin Tchang as the new regent.

Yuan Shih Kai says his foot has not yet healed, and enumerates other complaints from which he suffers. He further declares that while the time is so critical, he would rather stay in the tents for leave, but says his health prevents him from doing any work. He adds, however, that as soon as it is possible for him to work, he will try to do so.

Upon receipt of Yuan's reply, the assembly voted to adjourn until he takes up his duties as soon as he was able to do so, and to "get well" quickly.

Proclamations have been issued calling for recruits to the Manchu army and announcing an increase of 2000 men in the commandant corps, and prohibiting hoarding of rice and the increasing of prices above the market rate. Those transgressing this order will be severely punished.

The public granaries have contained grain for the past two months, but the rebellion. Notwithstanding the proclamation, the price of rice is rising.

A host of palace servants are sending their families into the country and are themselves requesting leave of absence. This has given rise to the suspicion that the usurper has left the capital. A report is also current that the Regent is dead. This has not been confirmed and probably arose through the fact that the Regent was absent from recent Cabinet meetings.

A consultative report of Yin Tchang states that the revolution is to be delayed until next year, but evidently has been postponed. An official dispatch to the British Legation expresses the view that unless Gen. Yin Tchang, the Chinese commander, wins a decisive victory within the next day or two, the whole of the Yangtze Valley will be ablaze.

It is believed that the bulk of the imperial army has gone to Kwang Shih. Report has it that the imperialists shot several engines recently who refused to take train to outer ports. British naval despatches confirm the fall of I-Chang and Chang Sha.

The rebels have declared all nations of war contraband.

WANTS ASTRONOMERS.

Pickering of Harvard Would Even Be Thankful for the Assistance of Astronomers.

(By DIRECT WIRE TO THE TIMES.)
CAMBRIDGE (Mass.), Oct. 22.—[Exclusive Dispatch.] Prof. E. C. Pickering, director of Harvard observatory, is in the lookout for astronomers of the amateur class to aid in a portion of the work of the observatory. He is ready to spend some of Harvard's money to aid young men who will give up their spare time to the science.

Already a number of amateur star-gazers in all parts of this country are enrolled in the ranks of the Harvard Astronomical staff. Nearly all of these amateur astronomers co-operating with Harvard are engaged in the field of variable star observation. The observations they make are assembled and studied by professional astronomers at Harvard. The work of the amateurs co-operating with Harvard consists of estimating the magnitude of variables.

R. D. Clinger is passing a few days at the Auditorium. He is a clever sketch artist whose work has appeared in a number of books of fiction and in one or two of the eastern magazines. He is here to get a few new ideas.

Athletes Who Will Guard American Legation in Peking.

Lieut. J. P. Wilcox, in Uniform, and His Staff.

Who have just been delegated to guard the United States legation in Peking, China, where the revolutionists are reported to be ready to strike at the first favorable opportunity. With Lieut. Wilcox, the athletes in the group are: (1) Private G. S. Hedrick, (2) Private R. E. McCune, (3) Corporal W. A. Millstead, (4) Private C. Peach, (5) Private C. A. Parce, (6) Private P. H. Curtis, (7) Corporal J. Roith, (8) Private M. C. Holler, (9) Private G. W. Klotz and (10) Private G. Hill.

Able-Bodied.**MARINES FROM MANILA TO GUARD THE LEGATION.**

(By DIRECT WIRE TO THE TIMES.)

PEKING, Oct. 22.—Exclusive Dispatch.] To reinforce the guard at the American Legation at Peking, 100 marines have been dispatched from Manila to the Chinese capital. Among this number are Lieut. J. P. Wilcox of the Marine Corps, a New York man, and ten star athletes of the corps. This picked guard will be

said to be more than the equal of any ten men at any other legation quarters, for the little group of Americans has distinguished itself in more ways than one. Three years in succession, in 1909, 1910 and 1911, Lieut. Wilcox and his men have won the international athletic trophy for sports against British, French and German competitors.

Bloody.

Yuan Shih Kai, the newly appointed Viceroy of Hu-peh and Hunan so far as known, has not yet made any move in the direction of the disaffected provinces. He was still at Chang Teh on October 20, and according to his servants, there was no sign of his departure.

The Peking government and Gen. Chao Erh Hsun, Viceroy of Manchuria, have made separate applications to the Yokohama Specie Bank for a loan of several million yen. It is understood both applications have been practically compiled with, although the exact amounts and the terms of the loans have not yet been made public. It is believed that China already has applied to Japan for military assistance, but Japan will make no move until after a full understanding with the United States. The small Japanese troops which have been sent to the protection of Manchuria.

The following instructions to the Japanese naval service in general have been issued by the Minister of Marine, Vice-Admiral Baron Minoru Saito:

"The present developments in China being of a serious character, each and every one of those serving in the imperial navy is expected to be diligent and faithful to his respective duties. He shall place himself on guard as to word and action, so as not to injure the name of the imperial navy or Japan's foreign relations."

In Korea there are no signs of agitation or disturbances of any kind.

CUTTING THEIR HAIR IN SAN FRANCISCO.

(By A. P. NIGHT WIRE TO THE TIMES.)
SAN FRANCISCO, Oct. 22.—All Chinese wearers of long hair after midnight will be adjudged Manchus sympathizers, according to a proclamation issued by Li Yung Huan, commander of the revolutionary forces in China, yesterday.

They are destroying bridges and mountain passes. They claim to have enlisted 15,000 former soldiers.

"I-Chang has fallen into the hands of a separate revolutionary organization called Kuomintang. The Wu Chang rebel agents swarm at Chang Shih-Yen Chow and other towns. The government is reorganizing the southern confederacy and are willing to abandon the north to the Manchus.

"See Chuen also reports heavy fighting. An emergency Red Cross Society has been organized at Peking. The government has been organized at the front, includes six American and five English doctors, six Chinese doctors and nurses. They will treat the wounded on either side. It is calculated that the government wounded already

number one thousand.

BUILDING RECORDS.

There was a time when one-tenth of the building activity now in progress in Los Angeles would have been regarded as a "boom." We never speak of "booms" in these days. But at the same time we can't help mentioning the master.

THE IRISH QUESTION.

The British Parliament is again about to reconvene for the purpose of legislating for the British empire in general, but particularly for the purpose of once more devoting the time of the honorable members to a consideration of the ever-present Irish question.

RUDYARD'S NEW POEM.

Rudyard Kipling has written some wonderfully great poetry and some that is very punk. His new poem in the current *Ladies' Home Journal* will rank, we think, among his best efforts. The verses are not complimentary to women and yet they will be pleased with them.

THE GREAT MAGNET.

There is ample evidence of the fact that the most effective magnet with which to draw iron dollars from the pockets of all sorts and conditions of men is a revolution. When it is possible to extract gold from a plodding Chinese vegetable man by means of an appeal to support a revolution, anything can be done with the same "soilier."

POPE AND JERUSALEM.

Grave doubts are entertained as to the probability of the occupation of Jerusalem by the Pope of Rome. This is a queer world, and its soul is the soul of change, but the chances are that a lot of Popes will come and go before the triple crown is transferred from the Tiber to the banks of any other stream.

MARS AVAILABLE.

A certain statistician of apparently pessimistic tendencies points out the fact that the earth's population is increasing at a tremendous rate. He expresses the fear that the time is approaching when there will not be sufficient room on the old ball for all the people. But let us not worry. The crisis cannot really come next year or anything like it. And anyway the chances are that Mars will soon be available.

THE CROWDING MASTS.

The launching of a ship at Long Beach may be taken as an omen of what is to come. The California coast is certain to see many ships launched in the future. We must take care of our sea-going trade as it rapidly increases, and we do not propose, of course, to buy ships in the East. We'll make 'em ourselves, by jolly! And their masts shall crowd our sunlit harbors.

DOMESTIC CRIMES.

Somebody should write a play, an epic or an essay on domestic crimes, and it should be distinctly pointed out that these crimes are not all committed by domestics. The fool killer certainly sleeps on his opportunity when he does not get the person who turns off the light bulbs instead of the switch, and who leaves a hurdle race of chairs in front of every door for the pre-meditated murder of those who come home at night.

SEASON OF MEMORIES.

At this time of year, when the gardener is planting bulbous things and the first roses are kindled on the open hearth for an evening hour, the memory of every man takes a backward trail to the old home place of youth. It makes no difference that all who made that homestead dear are with him in the West, or that they have long since found the newer kingdom. There is about the place where youth was spent a spirit of its own. This spirit stands apart from persons and experience. It forms the background for all our memories. It enters the fiber and is diffused in the blood of sons and daughters nourished by the land. All of us become attached to places, and though we know this golden California of our adoption to be the treasure land which alone can satisfy, there is a haunting, lingering memory of apple orchards, mosses, and old fashioned garden flowers which gives the home of childhood a twilight call in the bright glow of autumn.

THE MOTHER SLAVES.

One of the wrongs to right which no body seems to be taking steps—now, in an age when the righting of wrongs has become a very fat—is the lessening of the burden of the mother-slave. There is a lot of talk about sweat shops, the eight-hour day, the closed shop and what not, but not a word to make it easier for the mother upon whose shoulders the burdens of the house hold have been unloaded.

The boys of the family thoughtlessly make a tremendous amount of work for mother that could easily be avoided if they loved her one-half as much as they think they do. They throw their things around for mother to pick up; they bring home unexpected guests. A thousand and one things they do that add to her work unnecessarily. As for the girls—God forgive them! They make a veritable slave of mother.

Mother, of course, out of the vast love that sings in her heart for those whom in travail she has borne, seldom if ever complains. This fat, however, does not help the ache in her weary body at night. Everybody has more fun than mother. Everybody has it easier. We should all give more thought to her.

MILLIONAIRES AND "REDS."
From Caesar to Napoleon despots have been developed from republics. First the childhood of patriotism, simplicity, and public virtue. Next the manhood of military achievement, conquest and power. Lastly the old age of wealth, extravagance, corruption and debauchery. Then the mob and then the despot. The republics of antiquity occupied centuries in traveling the inevitable round, but we live in an age of steam and electricity, and we have whirled far into the third era. We are enlightened by the experience of the nations of antiquity and we will be wise enough and courageous enough to preserve our republic from their fate.

When our fathers formed this government they took the best parts of the British system for a model. They enlarged and liberalized the representative system and the right of suffrage. They preserved and continued in the new government all the great Saxon guarantees of liberty and order which had accumulated for years under the jealous and fostering care of the English people. They discarded some of the prominent errors and abuses of the British system. They dispensed with hereditary legislators and hereditary offices, and they rejected as unfit for our system of government the English law of primogeniture, which authorized the entailing of landed estates in perpetuity, without power of alienation, upon the male eldest next of kin.

Had their benevolent vision leaned forward for a century and a quarter they would have noted that corporations and trusts would have an efficient substitute for laws of entail. Could they have foreseen the colossal accumulations of wealth which science, invention, facilities of transportation and business organization have placed in individual hands, they might have so shaped our national organic law that the national Legislature would have had power to tax large fortunes out of existence. The exercise of such a power may seem to be unjust, but it may be necessary for the safety of the republic is the supreme law.

A very great fortune is a great power, and few men fit to be trusted with great power. John D. Rockefeller is estimated to be worth one thousand millions of dollars. With five others whose possessions average two hundred millions each, a force in finance and in commerce exists whose power for good or for evil is simply incalculable. There is some security against public disaster resulting from these vast accumulations of wealth to be found in the viciousness and brainlessness of the sons of multi-millionaires, who scatter the accumulations of their sires, so that in the third or fourth generation the boatman's car and the peddler's pack may be resumed.

The gold of California revolutionized the finances, the business methods and, to a certain extent the morals of the nation. Values advanced, wealth aggregated, population increased, the West leaped to stalwart manhood almost in a day, and greater facilities for inland travel and transportation became a necessity, to meet which new lines of railroad were rapidly constructed. The differences and difficulties of local management suggested the advantages of railroad consolidation. The Civil War broke down local prejudices, made east and west homogeneous, introduced communities to each other on the battlefield, obliterated State lines and made individual effort in business, in finance, in manufactures and even in politics less profitable to the individual than participation in aggregate effort, where his gains were increased although his personality was submerged.

The Civil War was an educator, but the moral nature of our people reacted to a certain extent from the tension of patriotic and generous sacrifice which existed during the war. In twenty years from the days when the American people paid a million lives and \$4,000,000,000 of treasure to save the life of the nation and free it from the wrong of slavery and the rule of a slave oligarchy, there was established in the great financial centers, especially in New York and Chicago, the rule of other despots, as selfish, as sordid, as relentless, and as rapacious of dominion as those whose sway had been trampled under the iron heels of our legions. Moloch was overthrown, but Plutus reigned in his place.

Many of the multi-millionaires of today are too just and others are too wise to push their power to its limits. But some are as selfish, as rapacious, as arrogant, as despotic and as corrupt as Russian boyars or Turkish hashaws, and yet ignorant of their danger, blind to the signs of the times, and concealed and obtuse to their responsibilities. They are unlike the kings and nobles and wealth owners of Europe—unprotected by traditions of divine right, or a great army, or any of the machinery of despotism.

On the other hand we have in all large cities a multitude who are unindustrious, unfrugal of life, uncurbed in spirit, uneducated, undisciplined in thought, fretful of small gains yet unable to make large gains, accustomed to freedom of speech and action, envious and jealous of the prosperity of others, unwilling to submit to restrictions of any kind, defiant of rule, often idle and sometimes drunken.

Is it not obvious that this is a powder magazine? In Europe the magazine is surrounded by stone walls and guarded from fire by rigid rules and watchful sentinels. In our own land it has lain open and unguarded, while anarchists with lighted torches passed to and fro.

The only adequate remedy for such evils as exist in the land and such evils as threaten it is freedom regulated by law—freedom of every man to worship where he will, to vote as he pleases, to work or remain idle as he pleases, to contract for the sale of his labor or the product of his labor if whomsoever he will, and to hire the labor or purchase the goods of another on such terms as he can.

GIN THE GOVERNMENT.

"A whom the gods wish to destroy they first make mad." Union labor, under the lead of the English anarchist, Samuel Gompers, now has the temerity to attack the government of the United States. Work in the Bureau of Printing and Engraving at Washington has for years been done upon hand presses, at a cost of \$500,000 per annum more than if it were done by modern power presses. This abuse has been perpetrated under cover of an act of Congress

There Is a Reason!

A VISION OF PEACE.

"And the kindly world shall slumber in universal Law"—(Tennyson)

Sing a song of visions,
Beautiful, if vague;
Four-and-twenty Judges
Sitting at The Hague,
Arbitrating gall

Every blessed thing—
Isn't this a saithy wish
For President and King?

The merchant in his counting-house
We can save his money,
For all is peace and sentiment
Treacle blend with honey;

The sailor on the warship
Only fights in fun;
Nothing but percussion caps
Will snap off a gun!

All the British navy
We can soon disband,
Guarded by the jurists
Made to Switzerland;

If we are invaded
We need never fight,
For a Judge (from Hayti)
Will defend our right!

Ploughshares out of sabres
Germany will forge;

War will be a lawsuit,

Wilhelm versus George;

We shall send our K.C.s

Pleading for the Crown,

Led by Viscount Haldane
In his wig and gown!

We shall have no soldiers,
Only citizens,

Pointing legal canons

(Not too many n's);

We shall hear of battles
Only in reports

On official paper

In the legal courts.

If one claims undoubted

Others won't admit,

We shall simply serve them

With the proper writ;

Should they brag and bluster,

That will not avail,

We shall merely ask for costs

On the highest scale!

Then, if any nation

Dares to break the peace,

All the rest will promptly

Call for the police;

And, if trouble follows

(Which we should deplore),

We must take especial care

Not to call it war!

Sing a song of battles

Quiet and serene,

Leaving only lawyers'

Wigs upon the green;

When the fight is opened

The barristers will say

Black is white and white is black

And both of them are Grey!

—By Adrian Ross, in Everybody's Weekly, London.

BOYS WHO SUCCEDED.

[Kansas City Star.] It doesn't make any

difference whether a boy is a ragged newsboy or a high school graduate with money,

he will succeed if he is honest and wants to.

There is nothing so scarce in the world

as a boy of the right sort.

He must be truth-true, honest, moral,

progressive, thrifty and not afraid of hard work.

He has got to take hard blows in business

life with a smile.

That spirit of taking a good hard drubbing now and then and not whining develops manhood.

The boy who can smile at hard luck is

built of the material that succeeds.

More rich men are holding out their

hands in the darkness to give a fellow a lift than ever before.

The need of hustling boys with willing

hands and hearts is very great. If he has

the pepper and ginger in his blood they—the

captains of industry—want him.

It is enough to make a fellow feel per-

fectly well to see the titles of the papers

the doctors read at their conventions. We

never knew there were so many diseases in

the human family.

It has been a bit discouraging.

BURDETTE AT THE BAT.

CIII.

The Inconvenience of Conveniences.

I wish, for example, that all my friends could know how useless in some instances, how worse than useless in others, it is to call me up for a long-distance telephone conversation. That great modern miracle of convenience has done me more evil than Alexander the CopperSmith ever wrought the preachers, albeit very unwittingly. That clause for the telephone.

For my larboard ear went out of commission many years ago. It has, in its best moments of alert vigilance, but a hazy comprehension of what is going on in the noisy world of salutation, request, intelligent activity, meetings and speechmaking. All telephones are made for right-handed—and not for right-eared—people. It is not at all convenient to cross the receiver astain the face, and even then the sympathetic affection of the active ear is impaired by the infirmity of the invalided left.

Therefore, when I receive a long-distance telephone message, I hear disjointed sentences, disconnected words, indistinct phrases. Name! I invariably get wrong; numbers, always. Then, because my correspondent is paying 5 cents a minute for doing me the favor of talking with me, I feel in courtesy bound to hurry. I put together what I have incorrectly heard, patching what I think I know with uncertain guesses. The result is worse than pigs in clover. Oftentimes I decline an invitation to dinner at the hospitable home of my friend, Ransom, whom I love, because I understand that Samson, whom I detect, was asking me to make a speech for his candidate for the Council, whom I hate. Or again, I get the name correctly and cry joyously, "Oh, with pleasure! Ever so glad!" and discover that I mistook the word "bury" for "marry," and have

Calm in Storm. UNSHAKEN BY STORM RAISED.

Prof. Day States Beliefs on

and Is Symbolical.

Holds Duty as Teacher Is to
Draw Distinctions.

The religious world is shaken by the storm which gathered about the head of Thomas F. Day, professor of Hebrew exegesis and higher criticism in the Presbyterian Theological Seminary at San Anselmo. It broke on Saturday, when the Presbyterian Synod, by vote of 118 to 81, asked his resignation from the seminary faculty because of his belief that the whale never

Rev. Thomas F. Day,
Professor of Hebrew exegesis and
higher criticism, in the Presby-
terian Seminary, at San Anselmo.
He has been the center of bitter
controversy at the Presbyterian
Synod, which has been in session
at Long Beach; his critics assailing
his orthodoxy.

swallowed Jonah, but is to be re-
garded as a parable, together with other alleged heresies.

In the midst of the deluge, Prof. Day clings to his belief born of deep study and mature reflection. The decline of the synod has naturally made a deep impression on him. On the point of threatened dismissal, however, there is some doubt that even with the assistance of new members of the board of directors of the seminary, an attempt to oust him would meet with success.

At present, Prof. Day is undecided what step to take. He left Long Beach yesterday to preach at Riverside and from that city he will return to San Anselmo to advise with his friends. Before leaving Long Beach he gave out an interview in which he stated his views on the points raised against him by his critics.

WHALE SYMBOLICAL.

Jonah in him represents a type of Israel, and his thought is that Israel's exile was symbolized by the prophet being swallowed by a great fish. The Book of Jonah he characterized as "one of the most beautiful and artistic compositions to be found in all literature."

"When I find for myself great spiritual truths breaking forth from any book of the Old Testament, which I study critically," he said, "I rejoice in the opportunity to make my fellow students see these truths as I see them."

"I believe it my duty as a teacher in the seminary to stand to my pupils in the relation of counsellor and guide, as well as instructor. When there are discussions on controversial or non-controversial subjects that belong to my department, I believe it to be my duty to draw attention to these."

"I distinguish between questions of criticism and questions of doctrine: between the plain facts of scripture and personal interpretation which may be drawn from them. I believe it is my duty as a teacher to show the students how to make the distinction. I believe and teach that either the traditional

or the modern critical view of the Old Testament may be held by evangelical Christians, consistently with a firm belief in its divine inspiration. I regard questions concerning the date and authorship of the various books as of secondary importance compared with the fundamental spiritual meaning, and I so teach."

THE STORY OF GENESIS.

"The account of the creation of the world and of man which is contained in the first chapter of Genesis, differs in important particulars from the account given in the second chapter. The differences would indicate that the two chapters are of different origin. In substance they are true, for their purpose is to teach the fact of a divine creation."

"In his representation of the manner of creation, each writer shares the limitations and difficulties of his time. The attempt to maintain their literal accuracy is beset by so many difficulties that most recent interpreters have abandoned it. It is best to think of them as religious rather than as strictly historic or scientific documents."

"We may distinguish between the spiritual fact and its literary garb. The narrative with regard to the fall of man is an example of ancient modes of accounting for things which were beyond the comprehension of the essence of faith. The fact of human sinfulness was accepted as a fact of experience. How to account for the origin of it was a problem which occupied thoughtful minds. One of the early explanations is given in this chapter. Perhaps it was meant originally as a serious attempt to solve the problem. It does not follow that we are obliged to accept it in all its bold literalness. I think it better to consider the words as symbolic of a great spiritual truth."

"Touching the question of his belief as to the limitations of Christ, he said:

"The question is not without difficulties for the intelligent Christian. He accepts the principles in the acceptance of some form of the doctrine of the Incarnation. One's self-limitations. If this mode of accounting for the facts is adopted, then it will be that the Son of God on becoming incarnate did not fully "emptied himself" so that His knowledge as well as His power and glory was limited, so long as He lived on earth. In matters of historical or literary character He had only the knowledge that was possible to any Jew of his day. This view is consistent with a firm belief in the divinity of our Lord."

Still They Come.

FORERUNNER OF GREAT TRAFFIC.

FIRST CHOCOLATE BEAN CARGO UNLOADED HERE.

Shipped from South America to Local Concern, Provisions Are Made to Take Care of Future Shipments, Which May Make Los Angeles World's Center for Same.

With the just-completed unloading in San Pedro harbor of the first vessel ever to bring a cargo of cacao, or chocolate beans from Ecuador, is laid the foundation of what experts predict will become one of the great industries of the Southland within a few years.

The "Leelanaw" direct from Guayaquil with her hold full of the odd-looking "beans" which are made up of the different kinds of chocolate of commerce, is hailed locally as the advance guard of a traffic to shortly make Los Angeles one of the chocolate centers of the world.

At the time of the building, three years ago, of the chocolate factory in Southern California, that of Bishop & Company, to whom the "Leelanaw's" cargo was consigned, was with the idea of attracting the chocolate export trade to the first North American port outside of the Andes from Ecuador. The idea is now more than justified in fact, and from now on this port will be a regular discharge point for the coast-wise chocolate bean traffic. The fact that the Andes mountain range, the Arctic region from Ecuador is considered a guarantee of the future of the chocolate industry here.

The cacao tree grows in the countries nearest the equator—tropical America, Africa, Asia, Australia, Ceylon, Ceylon, Java, Africa, and about most of these countries there has always been more or less an air of romantic mystery and extravagant tales. The cacao tree with its abundant red flowers and yellow fruit, is said to be quite rich and beautiful. It grows about twenty-six feet high, and the leaves are large, from twelve to fifteen inches long, and four to five inches wide. There are one ripe pod for every 1000 flowers. There are twenty-five to fifty beans in each pod. The fruit ripens the entire year, and it only requires four months for development. Many of the trees continue to bear fruit for fifteen years and yet bear fruit.

With the view of adequately caring for the great increase foreseen in the chocolate business, Bishop & Company have installed a large plant of a capacity considerably in excess of the immediate demands of the traffic. Their two mills, used for grinding the beans, have a gross capacity of 74,000 pounds daily.

The Sinews.

THIRTY-FIVE MILLION FOR WAR IN ORIENT.

Financing the Revolution in the Far East.

Fascimiles of the face and reverse of the bonds issued by the provisional republic of China and Ho Lee, head of the local Young China movement. Practically every one of Los Angeles' 3000 Chinese are revolutionists. Bonds amounting to about \$5000 have been sold in Los Angeles and as many more will probably be disposed of within the coming week. Lee says that \$35,000,000 in loans has been pledged the Young China party by United States banks if the revolution succeeds.

LOS ANGELES is one of five or six Chinese centers of importance in the country which are looked to for the financing of the Chinese revolution against the Manchu government, according to Ho Lee, head of the local Young China movement. Financial aid to the extent of \$25,000,000 has been promised the backers of the revolution by a number of United States banks in the event of the provisional government being established. It was decided yesterday that the Chinese government will pay the bearer its face value at the time of the government's formation. Payment will be made in gold at the treasury of State or at the foreign agencies of the provisional government, says the inscription, which is in English on one side and in Chinese on the other. It is signed by Sun Wen, President, and Lee Chung, Treasurer. Sun Wen is pronounced by the Chinese "Sun Moon" and is another name for Sun Yat Sen, the provisional President.

\$25,000,000 bonds have been sold to the local Chinese, netting \$465,000. It is expected that as many more will be sold this week, in addition to the donations received.

WARNING OF DEATHS COMING.

Well-to-Do Woman Writes Instructions for Use in Event of Her Demise.

With an apparent premonition of her death, Mrs. Emma Kratz, 65 years old, a former resident of Omaha, last week wrote a list of instructions to be followed in case of her death. Yesterday morning she was found dead in her bed at No. 924 Crocker street. Death was due to heart failure.

Mrs. Kratz came to Los Angeles about two years ago. She left money and ornaments showing that she has considerable money on deposit in different banks in this city, has several mortgages on which she has loaned money and owns an interest in an Arizona mine.

ST. PATRICK'S FAIR.

Annual Event Starts This Evening With Parish's Prettiest Girls In Charge and Fine Program.

The hum of preparation which has resounded in Parochial Hall of St. Patrick's Church on East Thirty-fourth for several days will give place tonight to the bustle of bazaar when the annual church fair begins. This is a great event and brings out the parishioners and their friends to an overflowing number.

The fair will be a success, and the most winsome girls will preside and dispose of the wares to eager patrons. The proceeds of the fair will be devoted to the benefit of the church.

The programs this evening will be in charge of the Ladies' Altar Society. Tomorrow night the Young Ladies' Sodality will entertain. The County Council, Y. M. C. A., will entertain Wednesday evening; St. Patrick's

In the Forum.

NEGROES HONOR LATE JUSTICE.

SERVICES HELD IN MEMORY OF COLORED MAN'S FRIEND.

Four Hundred Listen to Judge Willis, the Only White Man in the Assembly—Deceased's Attitude Against Slavery and His Firm Stand Since Commented Upon.

In memory of the late Justice John Marshall Harlan, a remarkable meeting was held by the Men's Forum in a hall on Eighth and Wall streets yesterday afternoon between 4 and 6 o'clock. The audience was composed entirely of negroes and excepting Judge Willis, the speakers were colored members of the bar.

"The Forum" is an interdenominational organization open to thinking men among the negroes of the city, meeting one afternoon each week for the study of current events. Its members have always held the late associate Justice in especial regard because of his long friendship for their race and more than 100 gathered yesterday to pay his memory the tribute of their voices. Of the many similar meetings, which have been or may yet be held, none can be more sincere.

The gathering was one of dignity and the people reflected deep thought and feeling. Judge Willis gave a brief resume of Judge Harlan's career, showing how that fearlessness with which he dissented from the views of his Kentucky friends and neighbors on the question of slavery, had won him the confidence of the nation, he sat on the supreme bench at Washington. In the many cases in which he wrote the dissenting opinion he voiced sentiments which sank deep into the American heart. In what was right and equitable he was not bound as legal Judge Harlan was quick to pronounce the inherent truth of the case and Congress often corrected the inadequacy of the law.

He had ever stood firm in his contention that under the Constitution no race can be subjected to another race and no individual to another. He applied this to the negro, to the Indian, to the alien, to all the people of the United States. He could see no justice in a law that did not apply with equal energy and effect to every citizen. Judge Willis was sure that his example was one for all young men to emulate and his life one that older persons could remember.

Other speakers were: Walter A. Taylor, F. M. Roberts, and J. F. Tyler. Each spoke with appreciation of Justice Harlan's qualities of judgment, honor and love of service. Mr. Crumley, president of the Forum, occupied the chair. T. W. Joy, as chairman of the Programme Committee, introduced Walter Taylor as master of ceremonies. The music had that richness of tone characteristic of the colored people. Emanuel Hall and Mrs. L. V. Stewart, offering appropriate solo.

Cock-a-Doodle-Do!

ROOSTER ROUTS SCARR'D SOLDIER.

CIVIL WAR VETERAN KNOCKED OUT BY CHANTICLEER.

Thrice wounded in wars, Nonagenarian and Battle-Marked Hero Is Thrown and Badly Hurt in Bloody Conflict With Family Cock, Whose Lights Are Now Out.

Though he executed a well organized flank movement and captured the commissary, the victory of Brigadier-General Rostand was short lived yesterday. When the dust had finally settled taps had sounded for him and his lights went out.

Brig.-Gen. Rostand is—a large fat rooster owned by Uriah Thomas, 76 years old, a veteran three times wounded in the Civil War. Thomas went to the poultry yard in front of his home, No. 531 Crocker street, yesterday morning to feed the chickens. He was a little behind time and the rooster was very angry.

As Thomas stepped into the yard Rostand launched himself upon the old soldier and the latter was thrown to the ground. Not satisfied with that, Chanticleer jumped upon him and tore Thomas' hand so badly with his spurs that the old soldier fled freely from a severed artery. Then Rostand turned his attention to the grain receptacle and ate up the contents.

For the time being Thomas conceded defeat but upon the arrival of Mrs. Thomas and Mrs. Minnie Gunther, their daughter, armed with clubs, Thomas took heart and the recently enfranchised contingent attacked and put to rout the rooster.

Then Mrs. Thomas and Mrs. Gunther took the old soldier to Receiving Hospital, where Dr. Carter dressed his wounds and dressed them.

He left the hospital smacking his lips in a manner that foretold a tragic end in the Rostand family.

FALD MAY BE FATAL.

Cement Worker Tumbles Into Arroyo Secco from Bridge Falling and His Skull Is Fractured.

As a result of falling into the Arroyo Secco from the Garvanza bridge early yesterday morning, John Tucker, a cement worker, is in Pasadena Hospital suffering from injuries which it is feared will prove fatal.

Tucker was walking to his home, No. 1935 Adeline street, South Pasadena. While crossing the bridge he thought he heard a queer sound below, at Moneta avenue and One Hundred and Tenth streets yesterday afternoon. His right hip was broken so severely that a portion of the bone protruded. An automobile which was driving across the road was unable to bring the injured boy to a hospital.

The broken hip was set and with good care the boy should speedily recover.

-WIDE S IN LOS ANGELES

IN THE CHURCHES YESTERDAY

DR. TILROE.
WESTLAKE M. E. CHURCH.
THE EAST IS NO HIGHER BUSINESS
THAN THE SEARCH FOR
HEAVEN.

E. W. E. TILROE preached yesterday at Boyle Heights M. E. Church from the subject, "The East Is No Higher Business Than The Search For Heaven." His text was Matt. 10:34. "He that shall endure unto the end, the same shall be saved."

"It is said that the great Henry Grady, one of the greatest men the South has produced since the Civil War, once left his editorial work in Atlanta and went to his childless home at Athens. He stayed there for two weeks with his mother, climbing over the old barn timbers, went to swim in the hills, skinned the cat, and cooked him the old-fashioned cakes and bread and tucked him away in his bed each night. He was just Harry once more. Ah, we all make this kind of a mess and fascinate till the mind wants to its heart. We have the outcome of the present destiny of man. The dimmest were asking questions of the day, the right of Christ's coming, the time of the end. The world was here things to them. There are more than the little people today."

"The daughter Jesus the large soul was the destiny of the individual. Away from the temple, from His final advent, away from the emanation of the Son of God, He drew them to the possibility of the one man."

"The ultimate weight or matter of things—the largest meditation of a mortal man—is the search for immortality. This is the relative ease of the Master of men."

"That shall endure unto the end is the greatest fact of this destiny in the fact that it gives the cast of human life. A man may do nothing important on his last to endure. Endurance is the whole story. He is to endure the things that would distract the soul. The rule of holy city, the end, the cares of home, the wife, the whole load of the world in his soul is to be forgotten in his soul. Bunyan's 'Pilgrim's Progress' for eternal life droves thorns in his ears. He is to endure the deceptions of life."

"When John Westcott died, he raised himself up from his pillow and quoted the words of our text. Think what it means to be lost, to wander forever in the mists of darkness, created out of nothing. Life never comes to the highest until it enters into the friendship of God. Then we go in and out in the strength of His grace, in the power of mighty thoughts. This is the rest that remains for all who will be the people of God."

revealed progressive alienation of the child from the parent's heart. But the man who has full control of all these is really the only free man in the world. The whole meaning of Christ is to take a hold of us and to lord it over us to make a man of us to serve the church, the human family, began with Adam, the Christian family with the Apostles. God is still giving the breath of life to our bodies, the breath of understanding to our minds and the breath of Christ to our spirits."

"It is said that the great Henry Grady, one of the greatest men the South has produced since the Civil War, once left his editorial work in Atlanta and went to his childless home at Athens. He stayed there for two weeks with his mother, climbing over the old barn timbers, went to swim in the hills, skinned the cat, and cooked him the old-fashioned cakes and bread and tucked him away in his bed each night. He was just Harry once more. Ah, we all make this kind of a mess and fascinate till the mind wants to its heart. We have the outcome of the present destiny of man. The dimmest were asking questions of the day, the right of Christ's coming, the time of the end. The world was here things to them. There are more than the little people today."

"The daughter Jesus the large soul was the destiny of the individual. Away from the temple, from His final advent, away from the emanation of the Son of God, He drew them to the possibility of the one man."

"The ultimate weight or matter of things—the largest meditation of a mortal man—is the search for immortality. This is the relative ease of the Master of men."

"That shall endure unto the end is the greatest fact of this destiny in the fact that it gives the cast of human life. A man may do nothing important on his last to endure. Endurance is the whole story. He is to endure the things that would distract the soul. The rule of holy city, the end, the cares of home, the wife, the whole load of the world in his soul is to be forgotten in his soul. "When John Westcott died, he raised himself up from his pillow and quoted the words of our text. Think what it means to be lost, to wander forever in the mists of darkness, created out of nothing. Life never comes to the highest until it enters into the friendship of God. Then we go in and out in the strength of His grace, in the power of mighty thoughts. This is the rest that remains for all who will be the people of God."

"There is a sense in which every age is a turning point in history. History is a living thing, and like all living things, changes with its growth from age to age. And there is a marked turning point, a turning point in history declare. In no field within the limits of modern vision is this turning evident than in the mighty impact of new religions upon the world and the king of these moods is the stress now falling upon the unity of things fundamental in religion."

"The world is face to face today with new and formidable situations which are as grave as the spiritual thoughts of God. Men are seeing that there must be a new religion, but reserve spiritual forces in the world-wide religion of Christ, which will enable the Christian world to meet these new and unprecedented conditions. A survey of the world shows that various elements at work which makes nations and religions."

"CALVARY BAPTIST CHURCH,
WESTLAKE M. E. CHURCH,
WORLD'S FACES TODAY, FORMIDABLE
TRADITIONAL THOUGHTS OF GOD."

"The Apologetic Value of Oneness in Christ" was the subject of the sermon yesterday of George A. Henry, D.D., pastor of the West Adams Methodist Episcopal Church. The text was John 14:1, 20, 21.

He said in part:

"There is a sense in which every age is a turning point in history. History is a living thing, and like all living things, changes with its growth from age to age. And there is a marked turning point, a turning point in history declare. In no field within the limits of modern vision is this turning evident than in the mighty impact of new religions upon the world and the king of these moods is the stress now falling upon the unity of things fundamental in religion."

"The world is face to face today with new and formidable situations which are as grave as the spiritual thoughts of God. Men are seeing that there must be a new religion, but reserve spiritual forces in the world-wide religion of Christ, which will enable the Christian world to meet these new and unprecedented conditions. A survey of the world shows that various elements at work which makes nations and religions."

"CALVARY BAPTIST CHURCH, the pastor, W. Leon Tucker, began a series of sermons yesterday morning on 'The Rich Man and Lazarus.' The first sermon was as to whether the 'Bible is a sufficient and satisfactory source of information concerning the person of Christ.' The speaker said in part:

"There are many who will receive the scripture from God who will not receive the Son from God. The scriptures bear witness to the Son and the Son bears witness to the scriptures. You cannot have the one without the other. You cannot know anything about the scriptures, apart from Jesus Christ and you cannot know any about Jesus Christ apart from the scriptures."

"The book and the person stand together, side by side. The deity of Christ from the scriptures and the deity of the scriptures from Christ. The Bible is concerning the Lord Jesus Christ. You cannot know the person of Christ through nature. Nature shows His performance, and His works in the person of Christ."

"In nature you can see His hand, but cannot behold His face. You behold the workmanship, but not the worker. Men do not go up to God through man, but through Christ."

"The book of Job is the most interesting book in the Bible. Nature here uncovers her treasures, but the verdict is that Touching the Almighty I Cannot Find Him." We do not see the glory of God save in the face of Jesus Christ.

"There is no way to find the person of Christ by reason. Philosophy is that attempt of man to know what his darkened mind cannot see, and is ever searching but never seeing. Christ is most known in Revelation."

"Written Kant to a friend: You do well that you base your peace and piety on the gospels, for in the gospels and in the gospels only is the source of deep spiritual truths, after which has disappeared out of the world."

"In nature you can see His hand, but cannot behold His face. You behold the workmanship, but not the worker. Men do not go up to God through man, but through Christ."

"The book of Job is the most interesting book in the Bible. Nature here uncovers her treasures, but the verdict is that Touching the Almighty I Cannot Find Him." We do not see the glory of God save in the face of Jesus Christ.

Some Figures

FANS ARE GUESSING ON NEXT YEAR'S TEAMS.

EVEN THOUGH the long Coast League season is hardly cold in its grave and its epitaph has not yet been written some of the fans are beginning to guess what each team will show when next season starts. This sort of Swiss cheese and fruitcake dreaming is bad business, but many of the fans fall for it just the same.

The first thing on the string for the next month will come the everlasting guessing on "ideal" teams made up of the "best" man for each position and when the fans become tired of that about Christmas they will really get busy on guessing which men each manager will keep for next season.

The average baseball fan, who is by large majority the most popular animal that walks the earth, has already figured out in his own mind just what men each manager should keep and will probably be up to date on individual names before you read on these guessers or be roasted.

The Los Angeles team is naturally the one that the fans have spent the most time picking to pieces for the reason that it is in the present. It seems that anyone can find fault with a loser and there was so much sport made of the Angels that the roasting undoubtedly affected the playing of the team.

The majority of the fans have resolved themselves to believe to the effect that Catcher Abbott and Pitcher Agnew will be missing from the team next year. Possibly Catcher Brooks will go. It is very near a cinch that pitchers Hahn, Patterson and Palmer will be gone, but nothing can be guessed about Pitchers Criger and Foster. The outfit will surely stick as it is now, unless Duley is traded or Portland.

Manager Dillon has drafted a good outfit. The Bassett, of Springfield, Mass., and another crack in Gutfield's Core of Grand Rapids Dillon stated that the club intends to buy a right-handed pitcher and an infielder. Manager Long is surely to be in the loop and the fans are anxious to know if he is now, unless Duley is traded or Portland.

Manager Patterson has drafted a good outfit. The Bassett, of Springfield, Mass., and another crack in Gutfield's Core of Grand Rapids.

Dillon stated that the club intends to buy a right-handed pitcher and an in-

fielder. Manager Long is surely to be in the loop and the fans are anxious to know if he is now, unless Duley is traded or Portland.

NEW VERNON CHANGES.

Hap Hogan has the fans guessing as to the make-up of his team next season for he has announced that he will not make many changes. He has stated that he wants about five new men for the next year's Tigers and among these will be catcher, pitcher, shortstop and outfielder.

The outfit and the fans are anxious to know if he is now, unless Duley is traded or Portland.

THE RULES.

FOOTBALL PLAYERS ARE HELPLESS WITHOUT CODE.

BY WALTER H. ECKERSALL.

(One of the greatest full backs Chicago University ever had.)

ALTHOUGH officials of football have act as supreme interpreters of the rules, it is as difficult for every player to know the code as thoroughly as an arbitrator. Under the present regulations, which are numerous and misleading, a wrong interpretation of the rule may result in defeat or victory.

The average spectator's standard there may appear little to learn in the code, but there is no set of rules for any sport which affords such opportunity for study as does that which governs football. Many of the rulings are so finely drawn that it takes time and study to get the correct sense. It is doubtful if the majority of the players in the big college elevens know to just what extent they are permitted to use their hands and arms in offensive and defensive play. The same may be said of the different penalties for the numerous infractions and the like which put the players on and off side.

Players maintain that the referee's chief duty is to interpret the rules impartially. There are many instances on record in which referees have not given teams all they were entitled to, not because of any intentional unfairness, but simply because the official ignorant of the correct penalty.

A player to obtain the referee's attention and courage in a game must show himself to a man of the world. In certain approaches are official to argue the justice of a certain ruling and the official learns the captain does not know the code, a strict official will not listen to appeals from such a player during the remainder of the game.

On the other hand, if the captain shows the official he is conversant with the ruling as the official, there will not be a moment in the contest when such a player will be unable to obtain a hearing. Upon this point depends the results of many games. It is possible the biggest contest of the season may be lost through lack of ability on the part of the players to realize some technical point which are recalled when the referee's decision is given.

Instances have been lost through the inability of players to solve the technicalities of the rules. It will be remembered that in a game between the University of Virginia and from the Navy in 1909, 5 to 0, there was such a technical point which gave the game to Virginia.

The Virginia eleven had worked the ball to the Navy's five-yard line, where the referee ruled that the ball was out of bounds and had held their opponents until it was third down and four yards to gain. On the final effort Virginia fumbled, the ball struck a Navy player, but was recovered by Virginia. The referee ruled the ball was free and called a safety, giving Virginia half a first down. A touchdown resulted, which caused the Navy's defeat.

After the game the point was made that the fumble was not a free one, and that the referee of the ball by a Virginia man did not notice it at first.

The rule covering the point state that the continuity of downs shall not be broken unless the ball shall have passed into the actual possession of the opposing team; before it is received by the ball by a Virginia man.

There was nothing so strange in this to attract especial attention.

Many Americans ask for more peculiar things than four windows in a room, and so he passed unnoticed save for his size, which is above the average.

In a short interview, Amato said that Americans always make the mistake of thinking that artists come here solely for the money. "I receive much more in other countries, particularly South America, than I

can get in the United States. In Buenos Ayres in Chile and other republics I receive \$10,000 a month, which is far better than I obtained from the Metropolitan Operahouse during my four years in that theater."

"One of my chief reasons for wanting to play in this country is because of the audiences who are always generous and always hearty, something that cannot be said of audiences in Europe."

Incidentally, Pasquale has traveled in many countries of the globe, having sung all through South America, in the Antipodes and through Europe before coming here.

Laughingly, he told of how his parents sent him to study for a naval engineer, but because he had a good voice some of his friends succeeded in persuading him to study vocal work. By the time he was 22 he was singing on the operatic stage of Italy. His success since has been phenomenal, having tour through the United States has been one of the very best financially as well as adding luster to his reputation, where it heretofore has only come from indirect knowledge of Amato's powers as a baritone.

In a short interview, Amato said that Americans always make the mistake of thinking that artists come here solely for the money. "I receive much more in other countries, particularly South America, than I

HEITMULLER IS BEST BATSMAN.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Oct. 22.—[Exclusive Dispatch] Unofficial batting averages of the Pacific Coast League for the season of 1911, just closed, would indicate that Heine Heitmuller has robbed Buddy Ryan of the honor of being the leading batsman of the league. Ryan, because he is a regular and has played the entire season, will receive recognition over Heitmuller, but his title is shadowed none the less.

With a new shortstop to be bought the question is that Hoop and McDonnell will be kept as utility men for both are good men.

BEAVERS ARE STRONG.

McGroarty of the Portland team will have six or seven new men and some of these may displace a few of the regulars. Mac will lose three cracks in Steen, Peckinpaugh and Ryan and his team may be changed entirely. The new man will be picked out for the right shortstop.

As a foundation for his pitching staff he will have Harkness, Koestner and Beaton and possibly Henderson, Schaeffer and himself. Ryan will be at first, Rodriguez at second, Lindsey at third, Krueger and Chabourne in the outfield and LaLange and Bunting in the bat. He has little deadwood in his team and the fans would have to wait a long time before they could figure which man or men McGroarty could release.

The Sacramento team is another hard problem to figure out for now. Charley Graham has control of the team and is a radio man. He will probably lose Bryan Lerner and Shinn and possibly Thomas.

He would not care to drop Van

Allen and Lewis from his outfit for the two men have been running around loose.

He has three fine pitchers in Baum, Fitzgerald and Hunter and good utility men in O'Rourke and Mahoney.

O'Rourke will doubtless remain with the team.

With one man lacking, their team would not be quite up to standard, but they gave promise of putting up a hard fight for the championship.

Capt. McDougal at full-back played a wonderful game seeming to do the two men's work without any difficulty.

The forward line of the Hibernians did some better combination work than previously shown and the whole team was playing a better grade of ball throughout.

The goals for the winners were scored as follows: Buckin (2), H.

McArdle (1) and McQueen (1). For the Hibernians, Martin and Riley were successful shooters.

The line-up follows:

Thistles: Hibernians Forsyth gold T. Greaves McDonald right-back McCatney McDaniel left-back W. Green McCloskey right-half Egan Bucklin center Riley (c) Gorfunke left-half Burns Cankle outside-right Burrows inside-right Steedenen

McQueen H. Brown inside-left Morris S. Brown outside-left McLinden Reserve. Low. Time of halves, 45 minutes.

POLICE DEFEAT CAR MEN AT BASEBALL.

Another large crowd witnessed the ball game between the police team and Los Angeles Railway Division No. 3 at Eagle Rock yesterday afternoon, which resulted in a victory for the Deaths by a score of 10 to 6. Among the features of the game was a phenomenal catch of Seguin Smith, who in the lastinning with two men on bases jumped in the air with one hand and landed a wallop, thus closing the festivities of the day. Another good play was that of Officer Shrader in the eighth, who landed a fly by a superb move which captured the hearts and admiration of the spectators.

Couson and Brown won for the Trolleymen, who distinguished themselves and prevented their team from a worse castigation.

The line-up in the batting order for the Police was as follows: McCarron, 2d; Clegg, 3d; Munson, 1b; Green, 1b; Schiefer, 2b; Smith, r.; Schrader, c.; Dively, 1b; Hammer, l.; Gile, p—6 runs; 9 hits.

The Rail road team was as follows:

Coupons, 1b; Venes, c.; Brown, 2b; Ward, r.; Stadel, 3b; Lynn, c.; Wenk, c.; Dively, 1b; Hammer, l.; Gile, p—6 runs; 9 hits.

The Police team is practicing for a game with members of the Fire Department which will take place on November 12 at Washington Park for the benefit of the Firemen's Relief Association.

There are many coaches who realize the value of their players knowing the rules perfectly, and those who do this give these meetings devote about an hour's time each day to lectures and quizzes on the rule book. Some of these drills are held at the training table, when the coaches ask different questions as the players are eating.

Autists Worn Out.

ATLANTA (Ga.) Oct. 22.—[By A. F. Night Wire.] Worn out from their week's battle with the highways from New York to the South, the Glidden tourists reached Atlanta at 4:15 yesterday afternoon to remain until Tuesday morning before proceeding to Jacksonville, the end of the 1911 tour.

Ellis Reaches Home.

Rube Ellis, outfielder for the St. Louis National League team the past season, arrived here on Saturday night for the winter and is the same old smiling Rube of yore. He had a good season and, of course, thinks there is no place like the big bush.

THISTLES WIN FROM HIBERNIANS.

Although playing the entire game without their full complement of men the Thistle team was able to take the contest from the Hibernians by the score of 4 to 2. This was the first appearance of the Thistle team in a London, at the Angelus.

Unassuming.

PASQUALE AMATO HERE TO CHARM WITH VOICE.

THE great Pasquale Amato, whose voice has reverberated many times in Los Angeles from a gramophone, arrived at the Lankershim yesterday evening, rather tired from his ride from San Francisco.

Writers have pictured him as a man of many eccentricities, one whose foibles were almost unbearable. From his department he seemed to be a very ordinary mortal. His requests were few, he having asked for nothing more than a room in the front of the house, which must have four windows to give proper air circulation.

There was nothing so strange in this to attract especial attention.

Many Americans ask for more peculiar things than four windows in a room, and so he passed unnoticed save for his size, which is above the average.

In a short interview, Amato said

that Americans always make the mistake of thinking that artists come here solely for the money. "I receive much more in other countries,

particularly South America, than I

The Cost of Purity exceeds all other Costs in Schlitz Brewing

We spend more on purity—more time, more skill and more money than on any other cost in our brewing.

We sterilize every tub, vat, tank—we scald every barrel—every pipe and pump—every time we use it.

We wash every bottle four times by machinery.

The air in which the beer is cooled is filtered.

Every bottle of Schlitz is sterilized, after it is sealed, by a process invented by Pasteur.

Light starts decay even in pure beer. Dark glass gives protection against light.

The brown bottle protects Schlitz purity from the brewery to your glass.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

See that crown or cork is branded "Schlitz."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

MASS MEETING HELD IN PARK.

Temperance and Extinction of Poolrooms Desired.

Pasadena Council Is Urged to Pass Ordinance.

Man Falls Through Bridge Into Arroyo Seco.

Tonics of The Times, 22 Fair Oaks Ave., PASADENA, Oct. 23.—Rev. Charles H. Scott, pastor of the Lincoln Avenue Methodist Episcopal Church, who spoke on "The City and Its Young People," at a mass meeting in Library Park yesterday, held under the auspices of the Woman's Christian Temperance Union, who did not have the proposed new liquor ordinance adopted by the city but would like to see poolrooms placed under the ban.

The request that poolroom proprietors of the city recently made of the City Council that the age limit of their patrons be reduced from 21 years to 18 years, was seized upon by Rev. Scott as one of the tendencies in Pasadena to corrupt the future generation.

"An effort," he said, "is being made to change the poolroom ordinance so that the young men of our city may be handed over freely to the common poolroom that these men of the cue may profit by a few more years of their lives. I think that it would not be going too far to have no poolrooms at all. If the question as to whether they should exist were to be left to the property owners in the respective blocks in which they are located I do not believe that three blocks in the city would permit them to remain open.

Rev. Scott also made some forcible statements in reference to the liquor situation in speaking of the proposed new ordinance now before the City Temperance Commission.

"It seems odd," he said, "that we should be concerned about this subject at all here, for Pasadena has long been looked upon from the outside as a model prohibition city, and that many things are altogether unsatisfactory to most of us. It is well to have excluded saloons from the city; but we now only deny to poor men and women what the millionaires and the rich may have, and the moral perils of this recognition of social class distinction will be almost as demoralizing to our young people a few years hence as the liquor would be to their bodies at the present time. When men too drunk to go home are loaded into crowded automobiles and taken on their way they are similar but if poor men go reeling down the street they are taken to the police station."

Rev. Scott went on to say that there is a moral protection to the young that no statute book will ever carry and which no system of policing has ever, or ever can, enforce, and that is what comes from good example.

"We would be glad," said he, "if we could touch a button of the social machine and make it grind out a product to our liking. But this cannot be done and so I plead in behalf of the young people not only protection by law but also for protection by example, so that they will not do what they should not because it is not done by the best people."

FALLS THROUGH BRIDGE.

John Tuckey of No. 1037 Adelaide avenue, South Pasadena, is at the Pasadena Hospital in an unconscious condition as a result of a fall from the Pacific Electric bridge across the Arroyo Seco at 2 o'clock yesterday morning. He sustained several cuts on the head, his right arm is broken, and he was reported last night to be in a serious condition.

He left Los Angeles for his place of residence on late car that did not cross the bridge and attempted to walk over it. One of the ties was missing and in the darkness he stepped through the aperture, falling a distance of seventy-five feet to the ground below.

William Scott of South Pasadena, who accompanied him, ran for aid and Tuckey was taken to the 100th Street Hospital in Los Angeles. He was brought to Pasadena yesterday. He has not regained consciousness since the accident.

The injured man came to California recently from England where he has a wife and family.

SUCUMBS TO ILLNESS.

Allen Lisk of No. 27 East Montauk street died yesterday at his home after an illness of several weeks. He had lived in Pasadena for the past sixteen years and had a small grocery and hardware business. He was 45 years of age and a native of New York. He leaves a widow. Funeral arrangements have not been made.

BABY RECORD BROKEN.

The baby record on the Mt. Wilson trail was shattered into small fragments yesterday. Leonard Little, son of Mr. and Mrs. F. O. Little of No. 1222 East Fourth street, Los Angeles, and who number but three months, traveled to the Quarantine House in a go-cart as did little Miss Leah Cappage, daughter of Mr. and Mrs. A. J. Cappage of No. 1069 East Thirty-first street, the same city. The babies were born in the same month and individually and collectively broke all existing records. Both as the youngest children who have essayed the trail and for having traveled the farthest distance of any children small enough to be called babies at all.

The leading women of the municipality have already placed their names on the register, and it is expected that the majority of the city fathers will be present at the meeting. Every woman who has been interrogated regarding the passing of senior bonds has expressed herself as heartily in favor of this progressive movement. The bonds will sell more readily if the election is carried by a large majority.

NEWS BRIEFS.

COVINA Registration is Heavy on Account of an Approaching Election—News in Brief.

COVINA, Oct. 22.—Women are being registered in anticipation of the election coming the last week in December, when the matter of building a sewer in the city will be voted upon.

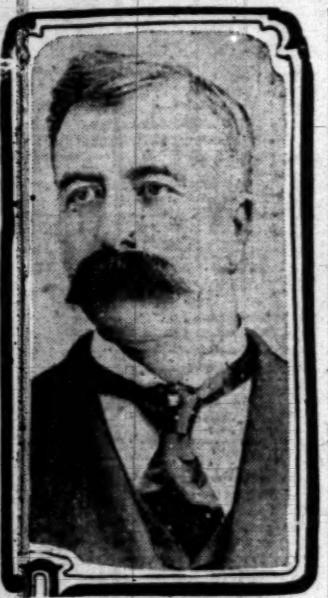

The leading women of the municipality have already placed their names on the register, and it is expected that the majority of the city fathers will be present at the meeting.

Every woman who has been interrogated regarding the passing of senior bonds has expressed herself as heartily in favor of this progressive movement. The bonds will sell more readily if the election is carried by a large majority.

LANDS IN JAIL.

Augustine Hidalgo, a Mexican, who lives at No. 277 North Stevenson avenue, was arrested yesterday afternoon by Police Detective Schultz on complaint of the prisoner's wife, who locked up in the City Jail, where he was held for drunkenness and disturbance of the peace. The woman claims that her husband had started to shoot up the house.

Motel Vista del Arroyo, Pasadena. Artists' materials at Wadsworth's.

Otanis F. Wright,
Citizen of the State, since the first
year of the Civil War, dies at
Agua.

AZUSA PIONEER PASSES.

*Otanis Wright, Resident of County
Fifty Years Dies After an Extended
Illness.*

*AZUSA, Oct. 22.—With the death
of Stanis F. Wright yesterday there
passed away one of the best known
men of Los Angeles county and the
son of one of the pioneer settlers of
South California.*

*Mr. Wright was born in Kankakee,
Ill., in 1854, the son of George
and Martha Wright. He was five years
of age when his parents crossed the
plains in ox teams. After spending two
winters in Fort Stanton, N. M., they
reached California June 2, 1861,
and located at what was then Green
Meadows, near the present town of
Wauseon. There Mr. Wright conducted
a general farm and dairy business
and also engaged in the business of
surveying, and for two winters taught
the district school at Green Meadows,
which was the oldest district outside
of Los Angeles.*

*A few houses and the family did their
shoeing and mending up the place. They
were among the first settlers to take
advantage of the rest provided by
trips to Catalina Island, and from
that early day to this have been
among its most frequent visitors.*

*February 20, 1894, Otanis Wright,
heights, married Miss Elmer E. of
the same place. They came at once to Azusa,
where they have lived ever since, and where Mr. Wright was
a successful owner of ranches, having
a thriving ranch just east of town.*

*For three years the deceased had
been in poor health, but at the end
came suddenly. He leaves a wife
and a young daughter, Mabel
Alega, a sister, Mrs. H. L. Ward, and
five brothers, Reason, Julian C. S. L.,
George, and Simeon. Reason lives in
Los Angeles, the others are all resi-*

*dents of the city. The deceased
was 85 years of age and was
a member of the board of directors
of the local Board of Education.*

PUBLIC PLAYGROUND.

*The Pine-avenue school ground will
be open for use as a public play-
ground from 2:30 to 6 o'clock every
afternoon, and all day on Saturday.
The Board of Education has
appropriated the sum of \$20 a month to
pay an attendant. A number of local
women have been working in the
school grounds for the benefit of a
public playground for some time. The
Pine-avenue grounds were selected as
being in the most thickly settled part
of the city.*

COMPLIMENTARY MEMBERSHIP.

*The entanglement of the hayards
having made it impossible to take
down the flag from the 100-foot flag-
pole, the city volunteered to let
Stanis F. Brown of this city volunteer
to climb the shaky pole and bring the
Stars and Stripes to the ground. When he finally had accom-
plished this nerve undertaking, Sec-
retary of the Camp of the Chamber of
Commerce asked what remuneration
he wanted.*

*"I'll just consider this my little
portion in aiding the town, and will not
present any bill," said Brown. Camp
officials donated to him a membership
in the Chamber of Commerce and
Brown was so honored himself
that he wanted.*

SPIRITS ARE UNDAUNTED.

*Huntington Park Schools Will Open
in Tents Today—New and Fine
Building Is Assured.*

HUNTINGTON PARK, Oct. 22.—
The people of Huntington are dis-
playing admirable spirit in the face
of the disaster which recently came
to them in the form of a fire when
the handsome new schoolhouse, which
had only recently been completed, was
totally destroyed.

*School will be opened Monday
morning in a group of tents. The
new school, first provided, will
be replaced as rapidly as possible by
planks and later a system of bunga-
lows will be built for the use of the
students until a new substantial
structure can be provided. The sum
\$42,000 will be realized from the
insurance carried on the building,
and in all probability this sum
will be augmented by a bond is-
sue which will furnish sufficient
money to construct a worthy suc-
cessor to the recently destroyed build-
ing.*

THE HUNTINGTON PARK HIGH SCHOOL

*district includes the towns of Florence,
Bela, Vernon, Fruitland and Hunting-
ton Park. The building destroyed
was a model in the completeness of
its finish and equipment and was a
monument to the surpassing com-
munity spirit which provided it. The
brick and arched departments offered
severe losses in the matter of equip-
ment and the faculty and students
lost considerable personal property.*

*Huntington Park residents are
splendidly enterprising people, and
possess the same qualities of the
public spirit, and they are practically
a unit in the determination to provide
the capable faculty with quarters
second to no city of similar size in
the State.*

NEWS BRIEFS.

*COVINA Registration is Heavy on
Account of an Approaching Election—
News in Brief.*

*COVINA, Oct. 22.—Women are being
registered in anticipation of the
election coming the last week in Decem-
ber, when the matter of building a
sewer in the city will be voted upon.*

THE LEADERSHIP.

*The leading women of the municipali-
ty have already placed their
names on the register, and it is ex-
pected that the majority of the city
fathers will be present at the meet-
ing.*

*Every woman who has been inter-
rogated regarding the passing of
senior bonds has expressed herself as
heartily in favor of this progressive
movement. The bonds will sell more
readily if the election is carried by a
large majority.*

NEWS BRIEFS.

*COVINA Registration is Heavy on
Account of an Approaching Election—
News in Brief.*

*COVINA, Oct. 22.—Women are being
registered in anticipation of the
election coming the last week in Decem-
ber, when the matter of building a
sewer in the city will be voted upon.*

THE LEADERSHIP.

*The leading women of the municipali-
ty have already placed their
names on the register, and it is ex-
pected that the majority of the city
fathers will be present at the meet-
ing.*

*Every woman who has been inter-
rogated regarding the passing of
senior bonds has expressed herself as
heartily in favor of this progressive
movement. The bonds will sell more
readily if the election is carried by a
large majority.*

Revolutionary Triumph.

Failure of Portuguese Royalists Apparent.

Julians Suffer a Reverse,
Berlin Reports.

NEW & P. NIGHT WIRE TO THE TIMES.]

LONDON, Oct. 23.—[Exclusive Dispatch] Second in importance to the Zapata insurrection is the state of affairs in Shensi, where the former revolutionary general, Juan Banderas, is active. The little revolt in Tchaco, where the rebels occupied one town in the name of Gen. Bernardo Reyes, "President," has not spread. Today Federal troops were sent to Ponoitán, a town of Jalisco, to quell Indians who rose in revolt. The Indians had discovered the falacy of their belief that they were to become land owners through the benefice of the State.

THE MEXICAN SITUATION.

MEXICO CITY, Oct. 23.—[Exclusive Dispatch] Second in importance to the Zapata insurrection is the state of affairs in Shensi, where the former revolutionary general, Juan Banderas, is active. The little revolt in Tchaco, where the rebels occupied one town in the name of Gen. Bernardo Reyes, "President," has not spread. Today Federal troops were sent to Ponoitán, a town of Jalisco, to quell Indians who rose in revolt. The Indians had discovered the falacy of their belief that they were to become land owners through the benefice of the State.

LOS ANGELES, Oct. 23.—[Exclusive Dispatch] Second in importance to the Zapata insurrection is the state of affairs in Shensi, where the former revolutionary general, Juan Banderas, is active. The little revolt in Tchaco, where the rebels occupied one town in the name of Gen. Bernardo Reyes, "President," has not spread. Today Federal troops were sent to Ponoitán, a town of Jalisco, to quell Indians who rose in revolt. The Indians had discovered the falacy of their belief that they were to become land owners through the benefice of the State.

THE WATCHMAN.

Lee C. Gates, who is now Senator from the thirty-fourth district of California, is to be a candidate for Congress in the new ninth district, which will undoubtedly be the north half of Los Angeles county.

Announcement of this intention has been made to his close friends and a formal statement to that effect is expected soon after the meeting of the Southern California members of the Legislature tonight.

In addition to the Gates candidacy I learn that Marshall Stimson, who has long had his eye on a seat at Washington, is also to be a candidate, though he has made no announcement to this effect. But it has been conceded, and not proclaimed by Stimson, that he would be a candidate in one of the new districts.

Along with this information comes the surprising news that friends of Mark G. Keppel, County Superintendent of Schools, are urging him to make the race in the new district and that he is seriously considering it.

Of course there has been thought of Senator Hewitt as a candidate, but there is little reason to believe that he will be in the race. Senator Thompson of Alhambra, has also been mentioned but it is not expected he could prevail on to run again. Gates, however, are not only closely associated in business but they are politically Damon and Pythias.

Last night I learned Senator Gates is to be a candidate for the new seat from the Sunny South.

"I have not announced my candidacy yet," said Gates, laughing. "It is reasonable to suppose that he does so without delay for the new district is not formed and ready for nomination by the fourteen Los Angeles members of the Legislature. Its dividing line east and west leaves Congressman Stephens entirely out of the geographical relation to any of the new candidates and it is not expected that he will have any opposition from the emergent ranks in the new tenth district.

The new tenth is to be the harbor district and will be composed of the south of the city and county and so far no candidate has applied from that end. Perhaps Sen. Peleg or Long Beach may bring out one later, but at the present Stephens seems to have a clear field.

TWO FOUND DEAD.

SAN FRANCISCO, Oct. 23.—[By A. P. Night Wire.] Clasped in each other's arms, the bodies of Timothy Cunningham, a peddler, and Neille Dougherty were found last night in a room at a Bryant-street hotel here by the police. Cunningham's throat was cut, but the authorities have not yet determined how the woman came to her death.

PORTLAND (Me.) Oct. 23.—[By A. P. Night Wire.] Worn out by long hours at the pumps, which had been manned continuously for days to keep their craft afloat, the crew of the Holy Ghost and Us Society yacht Coronet, which arrived after having been at sea since last June, welcomed a party who came from Shiloh to relieve them today. Mate McKamey came ashore last night with Dr. Charles E. Banks, physician of the Marine Hospital, and announced today that he was leaving Rev. Frank Sandford, leader of the society for good. Dr. Banks said he would call the attention of the United States District Attorney to this condition aboard the yacht. Dr. Banks said, "Many members of the crew are in a terrible condition with the scurvy."

Cunningham's throat was cut, but the authorities have not yet determined how the woman came to her death.

TWO TORPEDO BOAT DAMAGED.

CHARLESTON (S. C.) Oct. 23.—[By A. P. Night Wire.] Two of the boiler tubes of the torpedo boat Tingey blew out off Charleston lightship, painfully injuring J. L. Myers, a fireman, and J. H. Gibbes, a negro water tender.

ITALIANS DEFEATED.

BERLIN, Oct. 23.—[By A. P. Night Wire.] Special dispatches from Constantinople say the Turkish Ministry of the Interior has news that the Turks and Arabs have defeated 8000 Italians near Barka. The Italians lost 800 and the Turks 115 men. The Italians left large quantities of arms and ammunition on the field.

TROLLING FOR AUTO HAIR.

SAN BARTOLO SOCIETY PEOPLE ENJOY A VIGOROUS CHASE AFTER HAIR WEDED COUPLE.

SANTA BARBARA, Oct. 22.—The annual right of about twenty-five young people in a half dozen automobiles, a bride and groom, who were also in a motor car, up and down the streets of Santa Barbara last night, was witnessed here last night.

NEW THREATEN.

Trewitt, a Shields local contractor, has been awarded the contract to erect the handsome new \$25,000 theater to be built on West Street by E. O. Miller, the structure having been leased by G. F. Ashby for ten years. Work is to be done immediately, and it is expected the building will be ready for occupancy by January. This will give Hanford two first-class theaters of about \$800 seating capacity.

UNIQUE OPERATION.

An unusual operation was performed at the Hanford Sanatorium this week by Dr. C. T. Rossen. James H. McKenzie, employed in setting up new machinery at the Standard Oil Company's pipe line station at Corcoran, had the muscle of his shoulder loose while lifting a heavy casting. The surgeon stitched the muscle back into place again and placed the arm in a strong cast, and McKenzie was out of the hospital two days later. It is now known that the operation was a success and the effects of the peculiar affliction will not lose the use of his arm or shoulder.

LORD CASE DROPPED.

SANTA BARBARA, Oct. 22.—The case of the United States Oil and Land Company against Mrs. Teresa Bell of San Francisco, brought in the Santa Barbara Superior Court, has been withdrawn. The suit involved the 10,000 acres of Santa Barbara county oil land, which is said to be worth more than \$2,000,000. Mrs. Bell came here to defend herself, but was informed that the plaintiff had withdrawn and the cause dismissed on the ground that important witnesses could not be located.

The Good Government organization is practically consumed and the purchasers are ready to re-enter the operations. The majority of the persons that have run steadily since the war, and the new interests con-

stituted every effort to co-operate in the registration of women

and many women, who are interested in the result of the election, are now voluntarily serving as canvassers for the organization. They have all been made special registration agents by County Clerk Leeland. In addition, Leeland has agreed to send a registration deputy to any place in the city, where five or more women gather for the purpose of registration and he will have special depots in the department stores in the city. The Good Government organization has issued a statement calling attention of women to the fact that they do not have to state party affiliation in order to vote at the city election. In fact a majority of those who have been registered have not given party preference.

NEWS IN BRIEF

Evansville Society.

The residents of Los Angeles, who formerly lived in Evansville, Ind., will organize an Evansville Society at the residence of G. L. Loudon, No. 955 Arapahoe street, this evening.

New Class Started.

Unusual interest is displayed in the services of the practical training recently opened by the Bible Institute. Next Friday night dinner will be served at 6 o'clock, which will be followed by addresses by Rev. George W. Hunter, Superintendent; T. C. Horton, William Bradshaw and others.

Carnival of Nations.

The annual "Carnival of Nations" of Los Angeles Council, Y.M.C.A., will begin this evening at the Wadsworth Club House, No. 940 South Figueroa street, and conclude tomorrow evening. An elaborate programme has been prepared for both evenings. Booths provided over by appropriately dressed girls will represent seven nations in the goods which they will place on sale.

Progressive League Meeting.

The first public meeting of the Young Men's Republican League, a non-partisan organization, will be held this evening at the federation club room in the Wright & Calender Building. Address will be given by the anti-administration candidates for Mayor, Gregory, Mushet and Harriman. Next Monday evening Mayor Alexander will have his innings before the same club.

Bhal Birth Initiation.

Tomorrow evening the local lodge of the Independent Order of B'nai Brith will initiate 150 candidates the result of a three weeks' campaign for membership. The rooms of the lodge, which was organized just three weeks ago, are located at No. 731 West Seventh street. Otto Irving, Vice Grand President of District No. 4, and other grand officers will be present, and have charge of the initiation.

BREVITIES.

Southgate Card Club will have an evening whist party Tuesday, October 24, Thirty-third Street and Main streets.

Tele. 740, Branch Office, No. 113 South Broadway. Advertisements and subscriptions taken.

Hotel Roslyn and Natick, Best 35-cent meals. Sunday eve., 35 cents.

Uplifting.

VISIT OF TAFT
AN INSPIRATION.PASTOR SAYS HIS PRESENCE IS
SPUR TO AMBITION.

Hope of Country Is in Men With
Sense of Obligation to Higher
Power—Crowds Assemble to Feel
Contagion of Near Greatness, Not
from Idle Curiosity.

Finding a theme in the recent visit of President Taft to this city to point the text, Ex. 22: "A wise man's heart is in his right hand," Dr. Arthur S. Phelps, pastor of Central Baptist Church, emphasized last night from "The presence of a man whose official position is at the head of the ladder" and who "is an inspiration to ambition," the virtues which the present age demands of its young men if they are to succeed. He said in part:

"Looking down upon our familiar surroundings makes us stoop-shouldered; to walk straight, look up. Those who are born near the mountains or the sea have a continual vision of largeness. Crowds, do not throng at the visit of a King or President out of mere curiosity; it is to feel the contagion of near greatness. They used to bring out the sick on couches that the shadow of Peter might fall on them. Like the man whose sister floated down the flooded river on a table, and he 'accompanied her on the piano,' we can now say, 'I have seen and heard a President.' We have had an opportunity to 'view the remnant.'

The man whose heart is at his right hand is an earnest man. The center of his life is an accessible Earnestness; becomes efficient only under the control of an imperious calm. What is more calm than the sea or the solid earth? What more tempestuous when under the sway of upper or inner force? The body may whirl through the United States; the heart remain calm as Gibraltar. According to those who too frequently frequent the corner of his sofa, the guest of the hotel near where he was standing. Without warning, she opened her window and doused the speaker with a bucket of cold water. The meeting ended precipitately.

RESTORED TO ART.

Paintings of Anglano Artist, De-
stroyed by Fire, Reproduced as
Fruit of Toilless Trip.

Three months ago when several hun-
dred dollars worth of landscape and In-
dian paints, by W. E. Rollins of Los

Angeles, were destroyed by fire in Phoenix, Rollins said: "They shall not be lost, for I will repaint them."

Yesterday morning he and Mrs. Rol-
lins returned from a trip of two

months through the Arizona deserts
and canyons, bringing with them fifty
sketches of the lost scenes.

"It was a wonderful trip," said Mrs.

Rollins. "We traveled fully 600 miles

on buckboards, and we tramped the

mesas and explored the canyons until

we were tired enough to be glad to

get back into civilization again. And

compared by Miss Nancy Goodwin and Mr. and Mrs. A. E. Burkhardt, we first

went to Gallup, and thence by wagon

to Ganado, the sheep ranch belonging

to J. L. Hubbell, often called the

old man of Arizona.

From the Hubbell ranch we went

to Chin Lee, the mouth of the Chelly

Canyon. This canyon is eighteen miles

long, the rosy-rocked walls getting

higher and higher as one travels to-

ward the head of the great wall,

which a height of more than 7000 feet.

In this canyon is the Del Muerte cave,

the Cavern of Death. It is the re-

main of more than 200 Indians

who according to legend, were killed

by the Spanish in 1847.

Among other excursions in the

country is the one made by the

Indians themselves, in their

quest of responsibility and of atrition

and even absence of self-respect.

The man whose heart is at his

right hand has a high sense of per-

sonal honor. I can not make

political speeches, but emphasize

those virtues which the day demands

of its young men; if they are to

succeed.
